**HIGH
WATER**

SAY HELLO TO HIGH WATER

High Water is the hottest cover band in Chicagoland!

Our roots are in classic rock and blues, the songs we cranked on the car radio or the record player growing up. Bands like The Beatles, Rolling Stones, Muddy Waters, The Allman Brothers, Led Zeppelin, and more.

But we are inspired by current hits as well, by artists like Ben Harper, The Black Keys, Cracker, and many more.

Our band features a rock solid rhythm section and two of the best guitar players you will ever hear in one band, with one guitarist who also plays keyboard and sings! The lead vocalist has an entertaining and engaging style, great range and plays a mean harmonica, as well.

Above all we love playing music together and getting people up and having fun. In fact we have a box of small percussion instruments at every show and we encourage crowd participation! We have a personable style that gets everyone in the mood to cut loose and have a good time, and we deliver!

Our exciting mix of **classic and current rock hits** along with **Chicago-style blues** will get any joint jumpin! Whether you're interested in a private party, a restaurant performance, filling a local bar, or a large venue, we've got what it takes to bring it on home!
